

March 22, 1976

SENATOR MAHONEY: Senator Burbach has asked for the previous question and all of those in favor signify by the usual sign.

CLERK: Senator Mahoney voting aye.

SENATOR MAHONEY: Have you all voted? Please vote. All right. Mr. Clerk.

CLERK: 26 ayes, 8 nays.

SENATOR MAHONEY: Senator Cavanaugh, will you close. The last one scared me.

SENATOR CAVANAUGH: There was an agreement made five years ago that the University would not accept fees for this service rendered. That agreement is what prohibits fees being paid for this specific program at the University. Senator Mahoney offered an amendment which included \$194,000 for the Welfare Department to pay for this and rescind that policy. In my investigation, the \$194,000 was not justified because the majority of these services are performed outside where they are currently being compensated for. Now with all of Senator Goodrich's statements, they are inaccurate according to the information which was supplied to me but on the basis of them and Senator Goodrich's credibility, I will withdraw the amendment and let the policy stand as has been.
